

# St James's Church Piccadilly Strategic Plan 2016-2019

*Deepen our collective spiritual life, cherishing established relationships, finding new ways for people to get to know each other, pray, read the Scriptures and be the church in the world*

*Amplify Christ's call for justice and peace, building creative relationships with other Christians, other faiths and groups working for the common good*

God's generative, abundant, disruptive love is for humankind and all Creation

We meet Christ in our neighbour, with whom we belong and through whom we learn how to create a more just world

Communal Christian life is marked by joyous celebration, forgiveness, doubting and discernment, sustained by friendship and prayer

*Grow as an outward-looking church, serving our local community in Piccadilly and St James's, and becoming a more inclusive gathered community on Sundays*

*Welcome the stranger and expect to be changed by our Eucharistic commitment to hospitality*

*Rooted in these values we will.....*

*The Wren Project (restoration of the church and development of the site) will be a major piece of work over the next three years and will be based on these values and objectives.*
